

# Professional Whitening U-Wraps

*High Adhesion. Zero Residue.  
No Harsh Sensitivity.*

15% Hydrogen Peroxide • Nano-Hydroxyapatite • Strontium

## The "Clean Peel" Technology (No Residue)

Unlike traditional strips that leave a slimy gel mess, our Advanced PVP Technology creates a dry, high-adhesion bond.

### THE BENEFIT

Strips lock in place instantly and peel off completely clean. No rinsing or brushing required post-treatment.

## Desensitizing Formulation (No Harsh Sensitivity)

We eliminated the "zing" associated with professional whitening by combining two active desensitizers:

- ✔ **Strontium Acetate:** immediately blocks neural pain signals. .
- ✔ **Nano-Hydroxyapatite:** remineralizes and strengthens enamel during the whitening process.
- ✔ **Aloe & Calendula:** soothes gingival tissue to prevent gum irritation.

## Clinical-Grade Efficacy

15% Hydrogen Peroxide delivers professional-level stain lifting power in a 14-day regimen, comparable to chair-side results without the chair-side time.

- **Format:** u-shape design (wraps front & back)
- **Regimen:** 30 minutes daily
- **Flavor:** natural peppermint oil
- **Pack Size:** 14 treatments (28 strips)
