

CAVITY LINERS

FLUROSEAL®

Cat. No. 75-035 B
Dentin Shade - Trial Kit

Cat. No. 75-03 Dentin Shade
Cat. No. 75-13 Contrast Shade

Light-Cured Cavity Liner

OUTSTANDING FEATURES OF THE PRODUCT:

- Fast and easy to apply
- Economical
- Compatible with all restoratives and cements
- Mechanically strong and insoluble in oral fluids
- Long shelf-life; no refrigeration required
- Resistant to etching agents
- X-ray opaque
- Simplified handling; direct-to-tooth application (Cat. No. 75-035 B, Trial Kit)

TRIAL KIT (Cat. No. 75-035 B) CONTAINS:

Liner, 1.5g
5 Disposable Applicator Tips
Instructions

KIT CONTAINS:

Cat. No. 75-031 Liner, Dentin Shade, 7.5g x 2 Syringes (75-03 kit), or
Cat. No. 75-131 Liner, Contrast Shade, 7.5g x 2 Syringes (75-13 kit)
Instructions

ACCESSORY COMPONENT:

Cat. No. 30-55, 60 Disposable Tips

VARNISHES

Cat. No. 70-01 B

Cat. No. 70-03 B

U.S. PATENT 4,396,378

Copal Cavity Varnish

OUTSTANDING FEATURES OF THE PRODUCT:

- Most economical and convenient way to seal dentin tubulae under amalgam restorations
- Easy to apply due to moderate rate of curing
- Packaged in an unbreakable dispensing dropper bottle containing 15cc (1/2 oz.) of varnish
- No thinner necessary
- Does not contain chloroform or ethyl ether solvents

Universal Cavity Varnish

OUTSTANDING FEATURES OF THE PRODUCT:

- Forms an impermeable barrier that prevents penetration of toxic substances
- Reduces post-operative discomfort caused by sensitivity to hot and cold temperature changes
- Suitable and recommended for use under amalgam and composite restorations, and for cementing cast restorations on sensitive teeth
- Does not contain chloroform or ethyl ether solvents

****For Thinner/Remover, Order Cat. No. 70-04****

BONDING AGENT

Cat. No. 50-120

Dentin/Enamel Bonding System

For application as an intermediate between enamel or dentin and restorative material or cement, to enhance bonding to tooth structure, and to prevent marginal leakage and tooth sensitivity.

OUTSTANDING FEATURES OF THE PRODUCT:

- Simple and fast application technique
- Versatile - will bond to dentin and enamel margins
- Compatible with all light-cured restorative materials and cements
- Long shelf-life with no need for refrigeration
- Economical
- Minimal or no pulp irritation

KIT CONTAINS:

Cat. No. 50-121 Dentin/Enamel Primer, 6g
Cat. No. 50-122 Dentin Conditioner, 7cc
Cat. No. 50-110 Enamel Conditioner, 13cc
