

Hyperion X9 3D

Full 3D. Your Present

Widen your vision towards another dimension . 3D is the answer to your diagnostic needs, for the sake of a new universe of possibilities, at the highest level of efficiency .

- Multiple FOV (5x5), (8x5), (8x8), (11x5), (11x8), (11x13)
- 75um Voxel Sensor
- True 2D Panoramic X-Ray
- Bitewing, TMJ, Sinus, Dentition Projections
- Irys Imaging Software including Implant Library
- 3D Computer Workstation
- Delivery, Installation and Set Up
- On-Site Training for Hardware and Software

Hyp X9 3D Ceph M66-1254

Full perfection in 2D.

Perfection in two dimensions. Hyperion X9 elevates to excellence the quality of panoramic and cephalometric examinations, all of them available for your clinic .

Full vision :

Perfection in details

Why choosing when you can have everything? One detail, one world at your disposal. Hyperion X9 adapts to you and guarantees you highest definition images. Every detail, from every viewpoint, for the sake of complete, effective and quick diagnoses

Full Imaging

Faster than imagination. Hyperion X9 brings you maximum speed in image sharing . Simple, practical, effective . under all circumstances .

Full 3D Fov Experience.

Only Hyperion X9 Offers you an innovative FOV, unique of its kind since it is dynamic. The best for your clinic, excellence in your diagnoses.

X9 generation:

Full empowerment

All the possible choices in one touch. Hyperion X9 adapts to your work, optimizes your times, satisfies your needs. A hybrid platform with exceptional performances .

Hyperion X5 3D

Easy 3D/2D diagnostics.

The first suspended 3D/2D system, the world's smallest , now available for your surgery . Innovative design, flexibility and user-friendliness. Out of our experience comes. the best solution for every dentist .

Always by your side .

Maximum one-touch performance. Hyperion X5 simplifies your work by allowing extremely fast scans that give real-time images at minimum X-ray doses. Easy for you, comfortable for the patient

Built around your needs.

Hyperion X5 is an advanced, fast, simple imaging system that minimises X-ray doses and maximises image quality.

Flexible, comprehensive imaging - indispensable these days that revolutionises the way you work by taking your surgery's diagnostic potential to a whole new level.

Versatile diagnostics.

The 3D/2D system offers the best response to your diagnostic needs. Flexible, efficient, fast. Cutting-edge high definition 3D technology and fast-scan 2D multiPAN. Maximum results with minimum times and low X-ray doses.

MyRay Hyperion X5 "AIR" Pan. X-Ray M66-1302
MyRay Hyperion X5 "Standard" Pan Xray M66-1303

- Multiple FOV 10x10 - 10x7 - 10x6 - 8x10 - 8x7 - 8x6 - 6x7 - 6x6
- *3x3 footprint at full rotation
- True 2D Panoramic X-Ray
- Orthogonal shots, TMJ, Sinus, Dentition Projections
- Irys Imaging Software - Include Implant Library for 15 Different Brands. Ability to Export 2D and 3D Images in DICOM format.
- Includes 3D Computer Workstation
- On-Site Training for Hardware and Software

Fully iRYS.

Another dimension.
Another step in clinical diagnostics.

Software iRYS

Precision and speed. In less than a minute. Personalize your work with the best interface for your needs. More possibilities, maximum result.

- Preloaded implant libraries
- Implant simulation
- Compatibility with other software
- Data sharing with 2D and 3D Viewer
- Evolved image filters

The best software for your clinical needs.

iRYS quickly elaborates all kinds of acquired data and enables you to browse around the different images. Try and generate panoramic scans, cephalometry and three-dimensional bone models.

iRYS presents a multiple desktop management system so as to quickly visualize the images on the screen and effortlessly move from one page to the other.
